 **27-28 June 2023**

Cassini Entrepreneurship Days in Prague: where all roads lead to innovation

The European Union Agency for the Space Programme (EUSPA) is pleased to invite you in the Cassini Entrepreneurship Days that will take place on **27 - 28 June 2023** in **Prague**. The Cassini Entrepreneurship Days will showcase the most disruptive space-based solutions developed by the most promising European start-ups. Our innovators have been particularly enthusiastic in embracing the potential offered by the EU Space Programme and this is their time to shine.

About Cassini initiative

CASSINI is the European Commission's initiative to support entrepreneurs, start-ups and SMEs in the space industry, including New Space. It is a toolbox of different actions that offers support throughout the entire innovation cycle: from idea generation, to market entry and growth, enabling space companies to raise risk capital and boosting the market with more suppliers and new services.

The Cassini Entrepreneurship Days will present some of the most innovative solutions nourished under Cassini programme, including the finalists of myEUspace competition. The 2-day event will bring together investors, accelerators, the start-up community and anyone interested to hear from **more than 50 EU start-ups** and how their space-based innovations are supporting the EU strategic agenda. The start-ups will **demonstrate live their solutions** and pitch their ideas while there will be opportunities for matchmaking and networking.

If you are interested in space technology and want to have an exclusive access and exchange with the most promising innovators, then the Cassini Entrepreneurship Days is a not-to-be-missed event. We hope that you will find this event of interest and we look forward to welcoming you in Prague.

Yours sincerely,

Fiammetta Diani

Head of Market Downstream and Innovation department
